BATTLESTAR GALACTICA COLLECTION

Eaglemoss/Hero Collector Battlestar Galactica - The Official Ships Collection

In April 2017 Eaglemoss/Hero collector solicited a new series of ship models based on both of the Battlestar Galactica series from 1978 and 2004. These are made of die-cast metal and ABS plastic and are larger than their normal ranges with the first four issues being around 270 mm long. In October 2017 the prototypes for the Viper Mark I and II and the 2004 series Cylon Raider were shown at NYCC.
UK price is £44.99 per issue. US only subscriptions were confirmed on 11 January 2018 on Ben Robinson's twitter account and they went live on 9 May 2018.
Each model is accompanied by a 16 page magazine measuring 151 x 197 mm.
An article was posted on the Hero Collector website on 28 Feb 2018 previewing the first four issues and on the same day pre-orders went live for issue 1.
When issue 1 was released there was a suprise inclusion of a limited edition of 250 "Husker" variants distributed randomly. These were packed with sequentially numberd certificates of authenticity measuring 210 x 148mm. Issue 1 was first received by customers on 23 March 2018 in the UK and 7 April 2018 in the US.
On May 25 the "Apollo" Viper Mark II convention variant was announced at NYCC and was limited to 500 units. These were also packed with sequentially numbered certificates of authenticity, in a regular box with a gold sticker. They were also available at Destinaiton star Trek in Birmigham, England in October 2018.
In August 2020 an encyclopedic "Shipyards" reference book will be available showing 38 ships from both series, and a further "Designing Spaceships" volume will be available in 2021, featuring 18 ships.

I have compiled a scale chart of the ships from the BSG and Aliens collections which you can find at the bottom of this page.

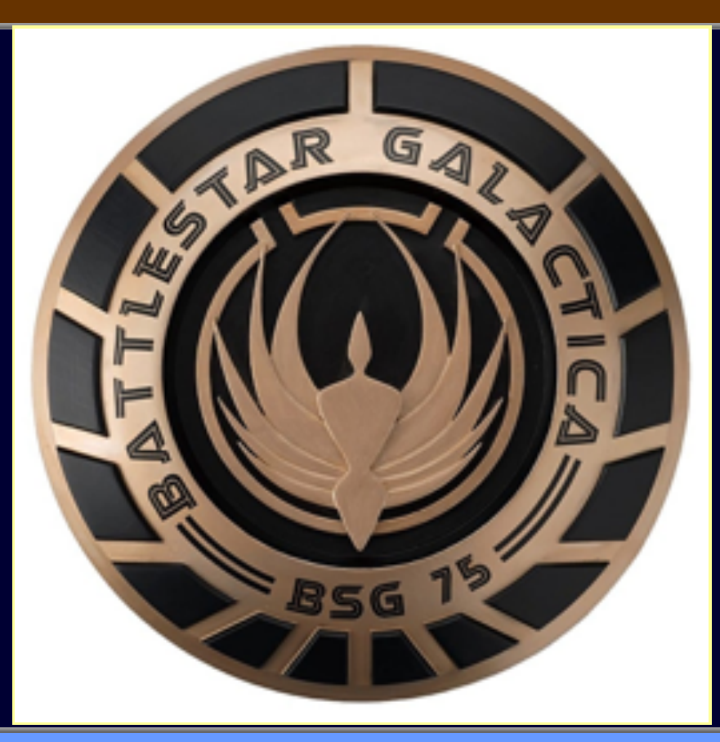
Diameter: 195 mm
Scale: ?
Weight: 800g

The text on the plaque shown is rotated 9 degrees anti-clockwise. I hope the production ones are corrected. The error was not fixed, however, due to fan complaints the price was reduced from £44.99 to £24.99 in the UK store and to a similar ratio in the US store. Additionally, anyone who bought one at the original price was given the option of a partial refund, or a full refund on return of the item.



Reference Books

Battlestar Galactica Shipyards

Release date: 4 August 2020

Featuring the ships from Universal Pictures' original 1978 US TV series and the reimagined series from 2003! The first and only complete encyclopedia of all the ships from both series.

THIRTY EIGHT SHIPS FROM THE COLONIAL AND CYLON FLEETS

With ships of both the Colonial Fleet and the Cylons from the original 1978 US TV series, the reimagined series from 2003, and the ten-part web series Blood & Chrome, this book provides in-universe profiles and plans of the key spacecraft of the shows with detail that has rarely - if ever - been seen before.

The Science Fiction series Battlestar Galactica first screened on US TV in 1978 and ran for 34 episodes. The groundbreaking show, with its dramatic premise, all-star cast and sensational space adventure, acquired a huge popular following and quickly became a best-loved show among fans of science science fiction and beyond. The show returned to TV screens in 2003 in a critically acclaimed and award-winning reimagined series, with Time Magazine naming it one of the '100 Best TV Shows of All Time.'

Each ship is illustrated in CG artwork, including original visual effects models made for the TV show, alongside detailed technical specifications, service history, and annotated views of the ships features.

Battlestar Galactica - Designing Spaceships

Release date: 21 November 2021

This new book goes behind the scenes on the award-winning TV series Battlestar Galactica to discover the concepts behind the designs of dozens of spaceships!

Battlestar Galactica debuted on TV in 1978 and acquired a phenomenal following, breaking new ground for TV drama and winning several awards. It returned to TV screens in 2003 in a critically acclaimed reimagined series, with Time Magazine naming it one of the 100 Best TV Shows of All Time.

This behind-the-scenes guide looks at the creation of the ships in both the original and the reimagined series, including vessels of the ragtag fleet and those of the Cylon enemy. Featuring artwork from the groundbreaking first series and the 2004 reimagined series, this volume explores the art of ship creation from the first sketches to the finished designs of the modelmakers.

Covering 18 key ships from the two shows, including the Galactica itself, the Vipers and the Cylon Raiders, the pages are packed with original concept art from designers Eric Chu, Andrew Probert and legendary artist Ralph McQuarrie.
